Rules and borders, no figures

An ordinary paragraph of readable prose that a text extractor carries back whole, followed by nothing but decoration.

> A pull quote whose only extra ink is a left border. The words inside it are text and must still come back as text.

Another paragraph of ordinary prose, so the page is clearly a text page and not a figure page wearing a caption.

Division	Revenue
North	1,240
South	2,310
